### CURRICULUM ADOPTION

The Bourne School Committee will rely on its professional staff to design and implement instructional programs and courses of study that will forward the educational goals and objectives of the school system.

Constant adaptation and development of the curriculum is necessary if the District is to meet the needs of the students and its schools. To be successful, curriculum development must be a collaborative enterprise involving staff and administrators utilizing their professional expertise and gathering input from parents, caregivers and the community.

The Committee will be informed of all new courses and substantive curriculum revisions and the Committee will receive reports on changes under consideration. Its acceptance of these reports, including the Program of Studies, will constitute its adoption of the curriculum for official purposes.
